NOTES								
1								
In 2011, 2014, 2016, and 2018, the VA adjusted the Veterans Population Model to account for current projections of Veteran's life expectancies, gains, and population shifts. As a result, some Counties may show unanticipated increases and/or decreases in Veterans Populations.

Financial assistance remains extremely low and has continued to decrease in number of applicants. Expenditures has increased slightly based on the cost of services (rent, utilities).

The Veterans ride for free on Medina County Transit, which we started 2020 has been an extremely popular program and has increased ridership on the Medina County Transit. We are extremely happy to be able to continue this program and hope to be able to do so well into the future. It helps with getting those elderly and severely disabled veterans out into the community and improves their health and quality of life. It is mandatory that they have a Medina County Veterans Identification Card issued by the County Recorder's Office to ride for free.

Closing:

Our office continues to look for ways to help our Veterans and their families along with being financially responsible to the taxpayers of Medina County. We also continue to try to find new and innovative ways to assist our Veterans and their family members that are in the greatest need. We have seen 1,383 clients in the first half of 2023, which is an increase from years past. We are still averaging a record number of phone call enquiries especially with the new PACT ACT Legislation passing.

We have been a part of the Medina Municipal Veterans Treatment Court since its inception. This has shown to be a great benefit to those enrolled in the court, which ultimately is a benefit to our community. We hope to see a Veterans Treatment Court start at the county court sometime in the near future.

Homelessness or the Risk of being Homeless continues to be an issue here in the county. When compared to other areas of the state we don't have a catastrophic issue, but at times we also do not have the necessary resources due to the same reason. We see several elderly veterans at risk of being homeless due to multiple circumstances. Transient veterans are also an issue with homelessness and seeking out resources to assist. We work closely with MMHA and the VA-Community Referral & Resource Center (CRRC) in coping with this issue. Although the ORC

prohibits us from assisting certain transient and non-qualified veterans with county dollars we never turn someone away if we are able to assist through another so called door.

Partnering with the Medina Health Department to provide dental care to low-income veterans has been a very successful program for the past three years now.

Our COOP program with the Parma Vet Center has expanded to two and a half days a week with two counselors and has moved from the Professional Building to the Human Service Center on the 1st floor.

We look forward to your continued support in supporting those that have earned it. The expansion of our faculty as well as increased services demonstrates the willingness and importance for Medina County to take care and serve those that have served.

Thank You

Edward Zackery
Director/Service Officer
Medina County, Ohio
